

Open Clusters

Epidemiological investigations and contact tracing have uncovered links between cases.

- i. 3 of the confirmed cases (Cases 61993, 62057 and 62063) are linked to the Case 61993 cluster, with the most recent cases (Cases 62057 and 62063) linked to the cluster on 16 April. Case 61993 is a 34 year-old male Indian national who works as a senior research fellow at the National University of Singapore and was confirmed to have COVID-19 infection on 15 April. Case 62057 was his workplace close contact and Case 62063 was his household contact.
- ii. 4 of the confirmed cases (Cases 61360, 61461, 61470 and 61917) are linked to the Case 61360 cluster, with the most recent case (Case 61917) linked to the cluster on 13 April. Case 61360 is a 50 year-old male Colombian national who arrived from Papua New Guinea for a work project in Singapore and was confirmed to have COVID-19 infection on 30 March. Cases 61461 and 61470 were identified as his close contacts during their flight to Singapore, and Case 61917 was a workplace close contact of Cases 61461 and 61470.

Summary of Cases in the Community

	Case Number	Date of Confirmation	Onset date	Age (years)	Gender	Nationality	Exposure	Key Places Visited after Symptoms Onset/ Swab (for asymptomatic cases)	Links	Cluster
*	62113	16 Apr	Asymptomatic	39	M	Indonesia	Local unlinked			

Case marked (*) was detected as a result of our proactive screening and surveillance.

Summary of Imported Cases

15 Apr	1300h to 1400h	National University of Singapore Information Technology (2 Engineering Drive 4) <ul style="list-style-type: none"> • Techno Edge Canteen

Those who had been identified as close contacts of confirmed cases would already have been notified by MOH.

As a precautionary measure, persons who had been at these locations during the specified timings should monitor their health closely for 14 days from their date of visit. They should see a doctor promptly if they develop symptoms of acute respiratory infection (such as cough, sore throat and runny nose), as well as fever and loss of taste or smell, and inform the doctor of their exposure history.

Individuals may access the SafeEntry Location Matching Self-Check service via the TraceTogether App, SingPass Mobile, or at <https://wereyouthere.safeentry.gov.sg> to check whether they were at these locations during the specified timings, based on their own SafeEntry records.

There is no need to avoid places where confirmed cases of COVID-19 have been. The National Environment Agency will engage the management of affected premises to provide guidance on cleaning and disinfection.
