

Open Clusters

Epidemiological investigations and contact tracing have uncovered links between cases.

- i. 3 of the confirmed cases (Cases 60102, 60389 and 60439) are linked to the Case 60102 cluster, with the most recent case (Case 60439) linked to the cluster on 23 February. Case 60102 is a 41 year-old female Singaporean who works as a cabin crew with Singapore Airlines and was confirmed to have COVID-19 infection on 8 February. Case 60389 is her spouse, and Case 60439 is her domestic helper.
- ii. 4 of the confirmed cases (Cases 60138, 60150, 60191 and 60192) are linked to the Case 60138 cluster, with the most recent cases (Cases 60191 and 60192) linked to the cluster on 11 February. Case 60138 is a 66 year-old male Singapore Permanent Resident who works as a stall owner of a sundry shop at Chinatown Complex and was confirmed to have COVID-19 infection on 10 February. Case 60192 is his spouse, and Cases 60150 and 60191 are his children.

2 Mar	2130h to 2200h	Murugan Idli Shop (76 Syed Alwi Road)
2 Mar	2225h to 2310h	Mustafa Centre (145 Syed Alwi Road)

Those who had been identified as close contacts of confirmed cases would already have been notified by MOH.

As a precautionary measure, persons who had been at these locations during the specified timings should monitor their health closely for 14 days from their date of visit. They should see a doctor promptly if they develop symptoms of acute respiratory infection (such as cough, sore throat and runny nose), as well as fever and loss of taste or smell, and inform the doctor of their exposure history.

Individuals may access the SafeEntry Location Matching Self-Check service via the TraceTogether App, SingPass Mobile, or at <https://wereyouthere.safeentry.gov.sg> to check whether they were at these locations during the specified timings, based on their own SafeEntry records.

There is no need to avoid places where confirmed cases of COVID-19 have been. The National Environment Agency will engage the management of affected premises to provide guidance on cleaning and disinfection.

¹ Excludes residence, workplaces, healthcare facilities and public transport. This list will be updated on a rolling 14-days basis, i.e. one incubation period, and as epidemiological investigations progress.
