

Open Clusters

Epidemiological investigations and contact tracing have uncovered links between cases.

- i. 7 of the confirmed cases are linked to the Case 62181 cluster, of whom 5 are re-infection cases. Case 62181 is a 35 year-old Bangladesh national who resides at Westlite Woodlands Dormitory and works as a construction supervisor at Sembcorp Marine Admiralty Yard. He was confirmed to have COVID-19 infection on 19 April. The other cases are his roommates at the dormitory.
- ii. 6 of the confirmed cases (Cases 62113, 62348, 62349, 62350, 62365 and 62485) are linked to the Case 62113 cluster, with the most recent case (Case 62485) linked to the cluster on 26 April. Case 62113 is a 39 year-old Indonesian national who is a sea crew on board a bunker tanker, and was confirmed to have COVID-19 infection on 16 April. Cases 62348, 62349, 62350, 62365 and 62485 were his workplace contacts onboard the ship.
- iii. 4 of the confirmed cases (Cases 61536, 62045, 62143 and 62234) are linked to the Case 62045 cluster, with the most recent case (Case 62234) linked to the cluster on 21 April. Case 62045 is a 41 year-old female Singapore Permanent Resident who works as an accountant at OM Universal Pte Ltd and was confirmed to have COVID-19 infection on 16 April. Cases 61536, 62143 and 62234 are her household contacts.
- iv. 3 of the confirmed cases (Cases 61993, 62057 and 62063) are linked to the Case 61993 cluster, with the most recent cases (Cases 62057 and 62063) linked to the cluster on 16 April. Case 61993 is a 34 year-old male Indian national who works as a senior research fellow at the National University of Singapore and was confirmed to have COVID-19 infection on 15 April. Case 62057 was his workplace close contact and Case 62063 was his household contact.
- v. 4 of the confirmed cases (Cases 61360, 61461, 61470 and 61917) are linked to the Case 61360 cluster, with the most recent case (Case 61917) linked to the cluster on 13 April. Case 61360 is a 50 year-old male Colombian national who arrived from Papua New Guinea for a work project in Singapore and was confirmed to have COVID-19 infection on 30 March. Cases 61461 and 61470 were identified as his close contacts during their flight to Singapore, and Case 61917 was a workplace close contact of Cases 61461 and 61470.

Summary of Cases in the Community

	Case Number	Date of Confirmation	Onset date	Age (years)	Gender	Nationality	Exposure	Key Places Visited after Symptoms Onset/ Swab (for asymptomatic cases)	Links	Cluster
#	62485	26 Apr	25 Apr	42	M	Indonesia	Local linked		Contact of Cases 62113, 62348, 62349, 62350 and 62365	Case 62113 cluster

Case marked (#) had already been quarantined earlier.

Summary of Imported Cases

	Case Number	Date of Confirmation	Onset date	Age (years)	Gender	Nationality	Travel History	Exposure	Links	Cluster
~	62488	26 Apr	Asymptomatic	32	M	India (Work Permit holder)	India	Imported	Contact of Case 62338	
~	62490	26 Apr	Asymptomatic	7	M	PR	India	Imported	Contact of Case 62473	
~	62492	25 Apr	21 Apr	49	F	Malaysia (Student's Pass holder)	Malaysia	Imported		
~	62493	26 Apr	Asymptomatic	30	F	Indonesia (Work Permit holder)	Indonesia	Imported	Contact of Cases 61884 and 61934	
~	62494	26 Apr	14 Apr	52	M	SC	India	Imported

Those who had been identified as close contacts of confirmed cases would already have been notified by MOH.

As a precautionary measure, persons who had been at these locations during the specified timings should monitor their health closely for 14 days from their date of visit. They should see a doctor promptly if they develop symptoms of acute respiratory infection (such as cough, sore throat and runny nose), as well as fever and loss of taste or smell, and inform the doctor of their exposure history.

⁵ Excludes residence, workplaces, healthcare facilities and public transport. This list will be updated on a rolling 14-days basis, i.e. one incubation period, and as epidemiological investigations progress.

Individuals may access the SafeEntry Location Matching Self-Check service via the TraceTogether App, SingPass Mobile, or at <https://wereyouthere.safeentry.gov.sg> to check whether they were at these locations during the specified timings, based on their own SafeEntry records.

There is no need to avoid places where confirmed cases of COVID-19 have been. The National Environment Agency will engage the management of affected premises to provide guidance on cleaning and disinfection.
