

Five Core Parameters to Reset Our SMMs

Parameter	Current Posture
(1) Group Sizes	No limit
(2) Mask-Wearing	Required on public transport ^a and select healthcare and residential care settings ^b
(3) Workplace Requirements	All can return to office
(4) Safe Distancing	Not required
(5) Capacity Limits	No limit ^c

^a Public transport settings that require mask-wearing include all public transport (i.e. on MRT/LRT and public buses) and indoor public transport facilities (e.g. boarding areas at bus interchanges and MRT platforms). Mask-wearing will continue to be encouraged in crowded areas.

^b Healthcare facilities and residential care homes that require mask-wearing include indoor premises of hospitals and polyclinics (inclusive of retail, F&B, common areas and other facilities within the hospital/polyclinic building), private primary care and dental facilities, specialist facilities, TCM clinics, renal dialysis centres, clinical and radiological laboratories, day hospices, residential care homes (such as nursing homes), COVID-19 care facilities, testing centres and vaccination centres and ambulances and medical transport vehicles.

^c While capacity limits have been lifted, VDS will continue to apply in the following settings: (i) Events with >500 participants at any one time; (ii) Nightlife establishments where dancing among patrons is one of the intended activities; and (iii) F&B establishments, including restaurants, coffee shops and hawker centres.
